Café ou Ovomeltine ? C'est notre choix comélien du matin... Aujourd'hui, on quitte la moyenne pour la haute montagne, on déjeune copieusement pour prendre des forces. Après un début bucollège sous le soleil et à travers les plaines, l'ambiance devient plus dramatique. Face à nous, la terre est retournée, les trones jonchent le soi et d'énormes rochers barrent le sentier. L'ébosément est récent. Le sentier grimpe doucement dans un pierrier, puis des névés pour se perche jusqu'à un coll masqué par la brune. On s'élance dans se sescracle d'apocaypse et on se retrouve à grimper avec de la neige jusqu'aux chevilles. Le rythme est raionti, mai le spectacle est enchanteur. Malgré le brouilland, on finit per apercevoir la cabene des Audannes. À notre arrivée, la gardierne nous annonce qu'en sera seuls ce soir. Après un bon plat de pâtes et une part de tarte, on s'endort, heureux de pouvoir roupiller au sec.
